

Data Reduction Steps

1. dark image

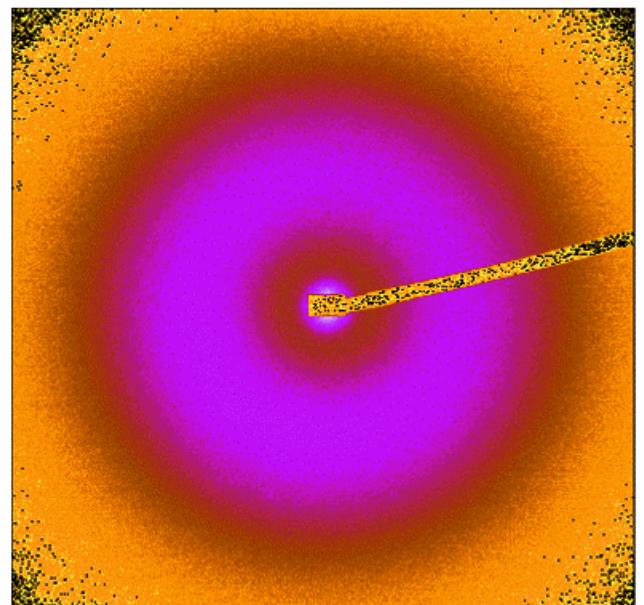

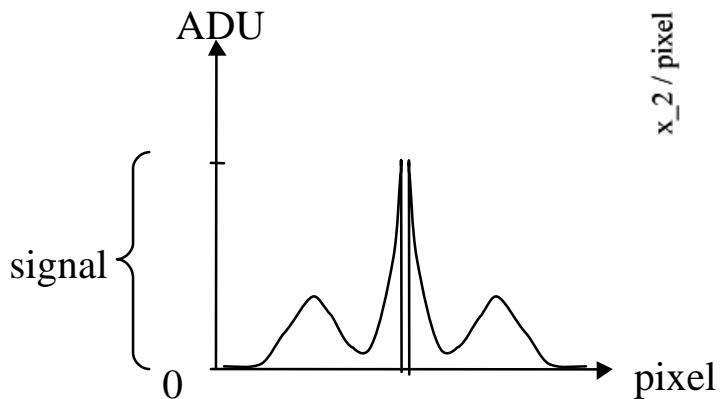

2. raw image

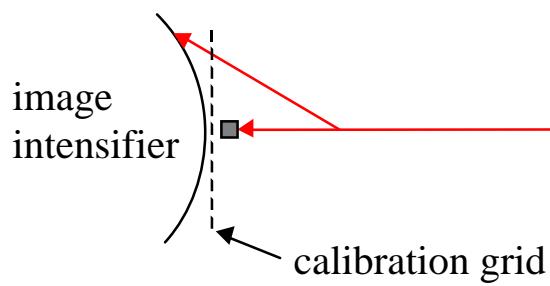

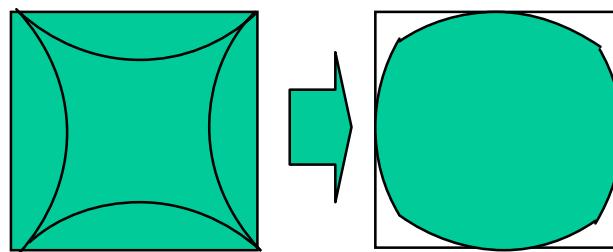

ADU

3. raw image - dark image

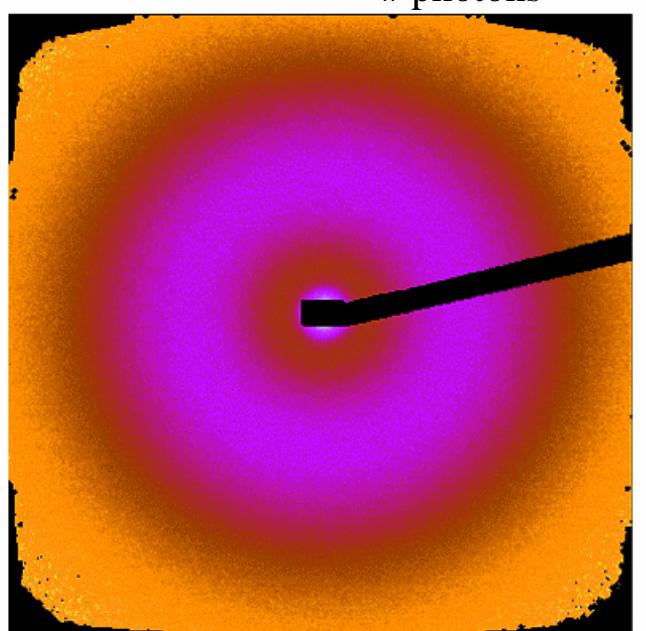

4. spatial distortion correction, division by flatfield, masking

x₂ / pixel

photons

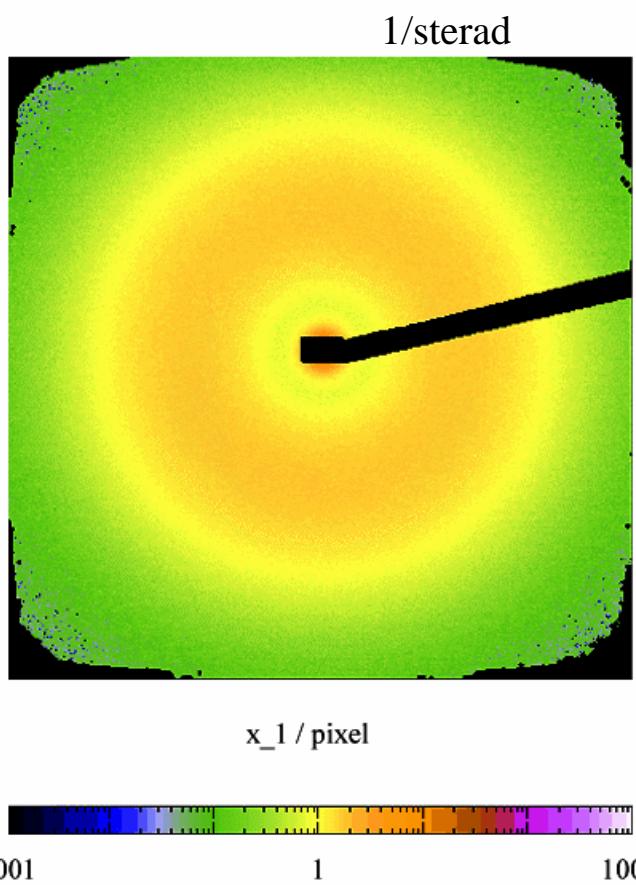

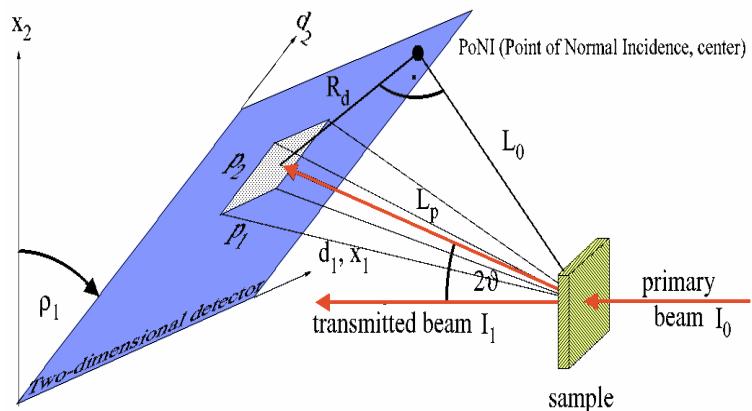

0.001

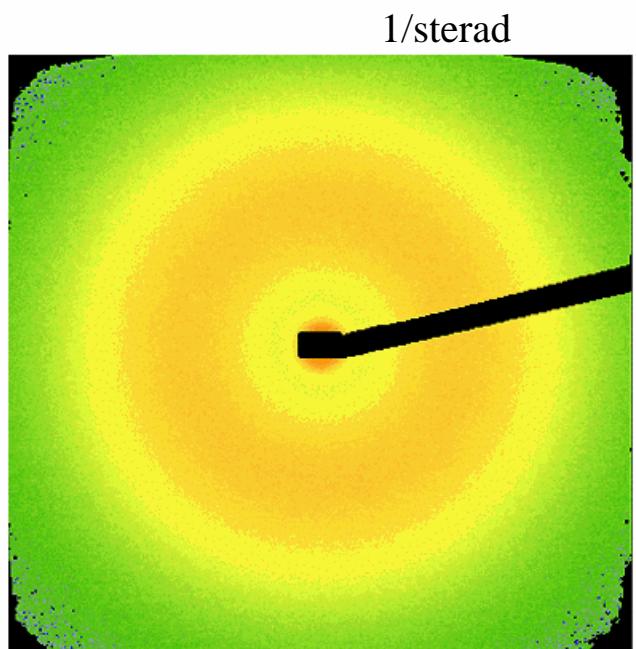

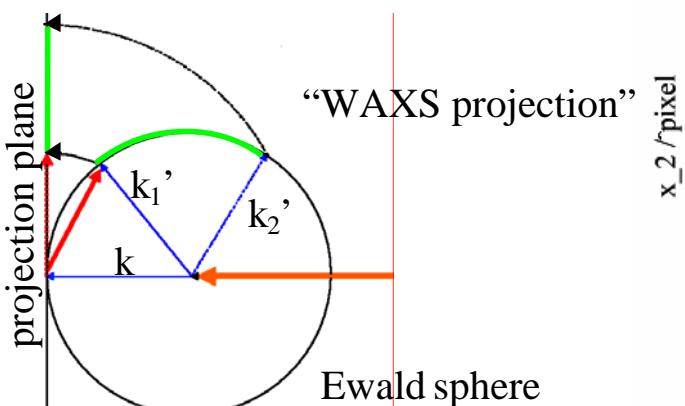

1

1000

5. normalization to absolute scattering units

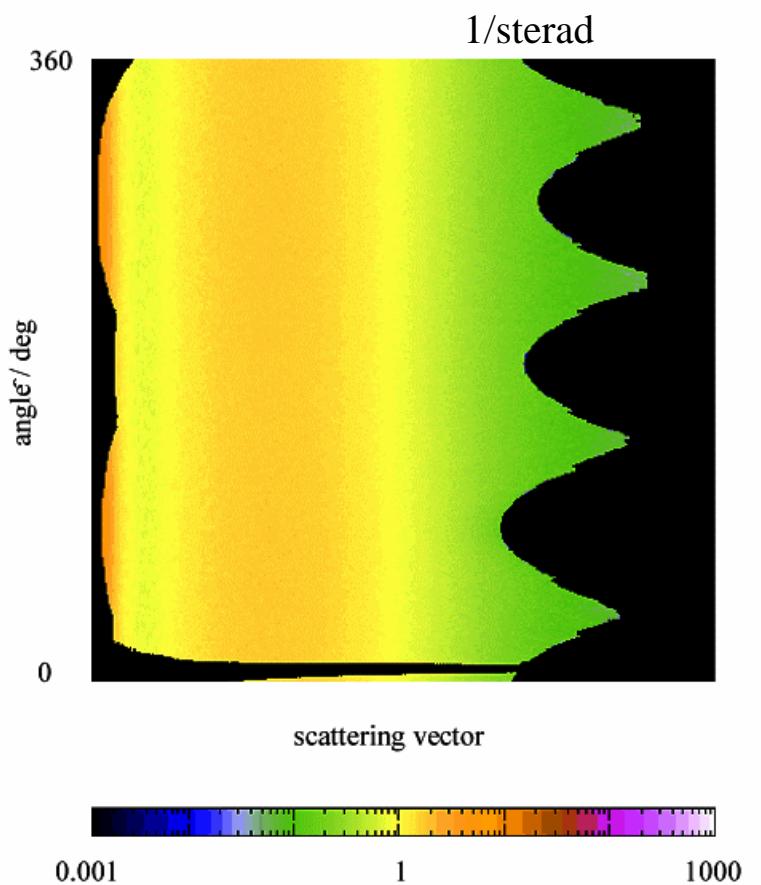

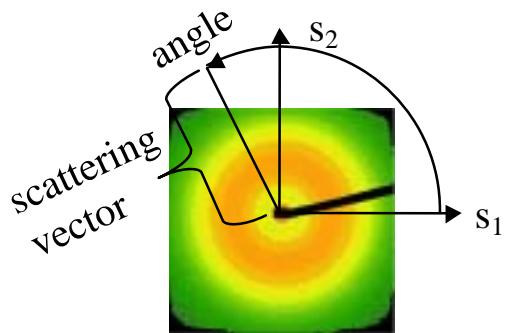

(6. Ewald sphere projection)

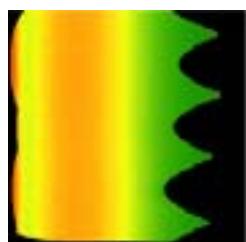

0.001 1 1000

7. azimuthal regrouping

8. azimuthal averaging

↑
averaging
